EU DECLARATION OF CONFORMITY

This Free of Charge application was designed to help manufacturers, consultants, notified bodies to keep under control the EU declaration of conformity.

The application allows you to:

- Compose in few minutes declaration of conformity compliant with applicable directives;
- Search for a standard by keyword or synonyms or filtering by directive(s);
- Get the right standards form the list of harmonised standards;
- Take under control list of products, declarations of conformity, amended declarations of conformity;
- Download declaration in word or PDF format, with your logo;
- Store all declarations on a secure server;
- Receive an alert when an harmonized standards change in the official journal;
- Automatically provide report (action list), when an official journal changes;
- Allow to work with one or more separate manufacturers;
- Take under control product made by assembly of products;
- Allow multiple users to access to the same work with different roles (view/edit/approve) declaration of conformity;
- Allow to add a QR CODE in the declaration of conformity so will be possible for users to check the last release of a declaration in our servers;

COMMISSION IMPLEMENTING DECISION (EU) 2019/1766**of 23 October 2019****amending Implementing Decision (EU) 2019/436 as regards harmonised standard EN ISO 19085-3:2017 for numerically controlled boring and routing machines**

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Directive 2006/42/EC of the European Parliament and of the Council of 17 May 2006 on machinery, and amending Directive 95/16/EC ⁽¹⁾, and in particular Article 10 thereof,

Whereas:

- (1) In accordance with Article 7 of Directive 2006/42/EC, machinery manufactured in conformity with a harmonised standard, the references to which have been published in the *Official Journal of the European Union*, is to be presumed to comply with the essential health and safety requirements covered by such a harmonised standard.
- (2) By letter M/396 of 19 December 2006 the Commission made a request to CEN and CENELEC for the drafting, the revision and the completion of the work on harmonised standards in support of Directive 2006/42/EC to take account of changes introduced by that Directive in comparison with Directive 98/37/EC of the European Parliament and of the Council ⁽²⁾.
- (3) On the basis of the request M/396 of 19 December 2006, CEN drafted the new harmonised standard EN ISO 19085-3:2017.
- (4) The Commission together with the CEN has assessed whether the EN ISO 19085-3:2017 drafted by the CEN comply with the request M/396 of 19 December 2006.
- (5) In December 2017, Germany raised a formal objection in accordance with Article 10 of Directive 2006/42/EC in respect of standard EN ISO 19085-3:2017 'Woodworking machines – Safety requirements – Part 3: Numerically controlled (NC) boring and routing machines'.
- (6) The formal objection raised by Germany is based on the failure of point 6.6.2.2.3.1 of standard EN ISO 19085-3:2017, dealing with the prevention of access to tools and other moving parts of the machine, to comply with the essential health and safety requirements set out in point 1.4.1 of Annex I to Directive 2006/42/EC.
- (7) Having examined the standard EN ISO 19085-3:2017 together with the representatives of the committee established by Article 22 of Directive 2006/42/EC and the representatives of the committee established by Article 22 of the Regulation (EU) No 1025/2012 of the European Parliament and of the Council ⁽³⁾, the Commission concluded that the standard fails to meet one of the essential health and safety requirements set out in point 1.4.1. of Annex I to Directive 2006/42/EC, namely the requirement stating that guards and protective devices must not be easy to bypass. In particular, the standard includes technical specifications for the access to the moving parts of the machine through the area between the machine frame and the lateral machine fences, but it does not address the design or protection of the machine frame itself, which in some cases may be low enough to be by-passed. Standard EN ISO 19085-3:2017 should therefore be published in the *Official Journal of the European Union* with restriction.

⁽¹⁾ OJ L 157, 9.6.2006, p. 24.

⁽²⁾ Directive 98/37/EC of the European Parliament and of the Council of 22 June 1998 on the approximation of the laws of the Member States relating to machinery (OJ L 207, 23.7.1998, p. 1)

⁽³⁾ Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council (OJ L 316, 14.11.2012, p. 12).

- (8) References of harmonised standards drafted in support of Directive 2006/42/EC are published in Commission Implementing Decision (EU) 2019/436 ⁽⁴⁾. In order to ensure that all references of harmonised standards drafted in support of Directive 2006/42/EC are listed in the same act, the reference of standard EN ISO 19085-3:2017 should be included in an Annex to that Decision. Implementing Decision (EU) 2019/436 should therefore be amended accordingly.
- (9) Compliance with a harmonised standard confers a presumption of conformity with the corresponding essential requirements set out in Union harmonisation legislation from the date of publication of the reference of such standard in the *Official Journal of the European Union*. This Decision should therefore enter into force on the date of its publication,

HAS ADOPTED THIS DECISION:

Article 1

Annex II to Implementing Decision (EU) 2019/436 is amended in accordance with the Annex to this Decision.

Article 2

This Decision shall enter into force on the day of its publication in the *Official Journal of the European Union*.

Done at Brussels, 23 October 2019.

For the Commission
The President
Jean-Claude JUNCKER

⁽⁴⁾ Commission Implementing Decision (EU) 2019/436 of 18 March 2019 on the harmonised standards for machinery drafted in support of Directive 2006/42/EC of the European Parliament and of the Council (OJ L 75, 19.3.2019, p. 108).

ANNEX

In Annex II to Implementing Decision (EU) 2019/436, the following row is added:

'3.	EN ISO 19085-3:2017 Woodworking machines – Safety requirements – Part 3: Numerically controlled (NC) boring and routing machines Notice: With regard to its point 6.6.2.2.3.1, the harmonised standard EN ISO 19085-3:2017 does not confer a presumption of conformity with the essential health and safety requirement set out in point 1.4.1 of Annex I to Directive 2006/42/EC, which requires that guards and protective devices must not be easy to by-pass.	C'
