EU DECLARATION OF CONFORMITY

This Free of Charge application was designed to help manufacturers, consultants, notified bodies to keep under control the EU declaration of conformity.

The application allows you to:

- Compose in few minutes declaration of conformity compliant with applicable directives;
- Search for a standard by keyword or synonyms or filtering by directive(s);
- Get the right standards form the list of harmonised standards;
- Take under control list of products, declarations of conformity, amended declarations of conformity;
- Download declaration in word or PDF format, with your logo;
- Store all declarations on a secure server;
- Receive an alert when an harmonized standards change in the official journal;
- Automatically provide report (action list), when an official journal changes;
- Allow to work with one or more separate manufacturers;
- Take under control product made by assembly of products;
- Allow multiple users to access to the same work with different roles (view/edit/approve) declaration of conformity;
- Allow to add a QR CODE in the declaration of conformity so will be possible for users to check the last release of a declaration in our servers;

Commission communication in the framework of the implementation of Directive 2009/48/EC of the European Parliament and of the Council on the safety of toys

(Publication of titles and references of harmonised standards under Union harmonisation legislation)

(Text with EEA relevance)

(2018/C 282/02)

ESO ⁽¹⁾	Reference and title of the standard (and reference document)	First publication OJ	Reference of superseded standard	Date of cessation of presumption of conformity of superseded standard Note 1
(1)	(2)	(3)	(4)	(5)
CEN	EN 71-1:2014+A1:2018 Safety of toys — Part 1: Mechanical and physical properties	This is the first publication	EN 71-1:2014 Note 2.1	28.2.2019
CEN	EN 71-2:2011+A1:2014 Safety of toys — Part 2: Flammability	13.6.2014	EN 71-2:2011 Note 2.1	30.9.2014
CEN	EN 71-3:2013+A3:2018 Safety of toys — Part 3: Migration of certain elements	This is the first publication	EN 71-3:2013 +A1:2014 Note 2.1	28.2.2019

Note 1: For lead, the migration limit values are as follows as of 28 October 2018: 2,0 mg/kg in dry, brittle, powder-like or pliable toy material; 0,5 mg/kg in liquid or sticky toy material; 23 mg/kg in scraped-off toy material. See Directive (EU) 2017/738 (OJ L 110, 27.4.2017, p. 6).

Note 2: For chromium (VI), the migration limit values are as follows as of 18 November 2019: 0,02 mg/kg in dry, brittle, powder-like or pliable toy material; 0,005 mg/kg in liquid or sticky toy material; 0,053 mg/kg in scraped-off toy material. See Directive (EU) 2018/725 (OJ L 122, 17.5.2018, p. 29).

CEN	EN 71-4:2013 Safety of toys — Part 4: Experimental sets for chemistry and related activities	28.5.2013		
CEN	EN 71-5:2015 Safety of toys — Part 5: Chemical toys (sets) other than experimental sets	13.11.2015	EN 71-5:2013 Note 2.1	31.5.2016
CEN	EN 71-7:2014+A2:2018 Safety of toys — Part 7: Finger paints — Requirements and test methods	This is the first publication	EN 71-7:2014 Note 2.1	28.2.2019

Note 1: For the allowed preservative climbazole (entry 22 in Table B.1 of Annex B to standard EN 71-7:2014+A2:2018) the presumption of conformity applies up to a maximum allowed concentration of 0,2 % (not: 0,5 %). This is based on the 'ADDENDUM to the Opinion on Climbazole (P64) ref. SCCS/1506/13' of the Scientific Committee on Consumer Safety (SCCS) that was adopted after the publication of the standard by CEN.

https://ec.europa.eu/health/sites/health/files/scientific_committees/consumer_safety/docs/sccs_o_212.pdf

Note 2: The allowed preservatives a) Mixture of 5-Chloro-2-methyl-isothiazol-3(2H)-one and 2-methylisothiazol-3(2H)-one with magnesium chloride and magnesium nitrate and b) 2-methylisothiazol-3(2H)-one (MIT) (entries 31 and 32 in the superseded standard EN 71-7:2014) have been restricted to a) 1 mg/kg (content limit) and b) 0,25 mg/kg (content limit) in aqueous toy materials by Directive (EU) 2015/2117 (OJ L 306, 24.11.2015, p. 23). Both content limits are applicable since 24 November 2017. The superseded standard therefore does not any more provide the presumption of conformity for these two preservatives.

Note 1: Generally the date of cessation of presumption of conformity will be the date of withdrawal ('dow'), set by the European standardisation organisation, but attention of users of these standards is drawn to the fact that in certain exceptional cases this can be otherwise.

Note 2.1: The new (or amended) standard has the same scope as the superseded standard. On the date stated, the superseded standard ceases to give presumption of conformity with the essential or other requirements of the relevant Union legislation.

Note 2.2: The new standard has a broader scope than the superseded standard. On the date stated the superseded standard ceases to give presumption of conformity with the essential or other requirements of the relevant Union legislation.

Note 2.3: The new standard has a narrower scope than the superseded standard. On the date stated the (partially) superseded standard ceases to give presumption of conformity with the essential or other requirements of the relevant Union legislation for those products or services that fall within the scope of the new standard. Presumption of conformity with the essential or other requirements of the relevant Union legislation for products or services that still fall within the scope of the (partially) superseded standard, but that do not fall within the scope of the new standard, is unaffected.

Note 3: In case of amendments, the referenced standard is EN CCCC:YYYY, its previous amendments, if any, and the new, quoted amendment. The superseded standard therefore consists of EN CCCC:YYYY and its previous amendments, if any, but without the new quoted amendment. On the date stated, the superseded standard ceases to give presumption of conformity with the essential or other requirements of the relevant Union legislation.

NOTE:

- Any information concerning the availability of the standards can be obtained either from the European standardisation organisations or from the national standardisation bodies the list of which is published in the *Official Journal of the European Union* according to Article 27 of the Regulation (EU) No 1025/2012 ⁽¹⁾.
 - Standards are adopted by the European standardisation organisations in English (CEN and Cenelec also publish in French and German). Subsequently, the titles of the standards are translated into all other required official languages of the European Union by the national standardisation bodies. The European Commission is not responsible for the correctness of the titles which have been presented for publication in the Official Journal.
 - References to Corrigenda ‘.../AC:YYYY’ are published for information only. A Corrigendum removes printing, linguistic or similar errors from the text of a standard and may relate to one or more language versions (English, French and/or German) of a standard as adopted by a European standardisation organisation.
 - Publication of the references in the *Official Journal of the European Union* does not imply that the standards are available in all the official languages of the European Union.
 - This list replaces all the previous lists published in the *Official Journal of the European Union*. The European Commission ensures the updating of this list.
