EU DECLARATION OF CONFORMITY

OFFICIAL JOURNAL OF IN VITRO DIAGNOSTIC MEDICAL DEVICES REGULATION (EU) 2017/746

EU DECLARATION OF CONFORMITY

This Free of Charge application was designed to help manufacturers, consultants, notified bodies to keep under control the EU declaration of conformity.

The application allows you to:

- Compose in few minutes declaration of conformity compliant with applicable directives;
- Search for a standard by keyword or synonyms or filtering by directive(s);
- Get the right standards form the list of harmonised standards;
- Take under control list of products, declarations of conformity, amended declarations of conformity;
- Download declaration in word or PDF format, with your logo;
- Store all declarations on a secure server;
- Receive an alert when an harmonized standards change in the official journal;
- Automatically provide report (action list), when an official journal changes;
- Allow to work with one or more separate manufacturers;
- Take under control product made by assembly of products;
- Allow multiple users to access to the same work with different roles
- (view/edit/approve) declaration of conformity;
- Allow to add a QRCODE in the declaration of conformity so will be possible for users to check the last release of a declaration in our servers;
- Hundreds of experts are already using this software

COMMISSION IMPLEMENTING DECISION (EU) 2026/1313

of 15 June 2026

amending Implementing Decision (EU) 2021/1195 as regards the harmonised standard for symbols to be used with information to be supplied by the manufacturer

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation, amending Council Directives 89/686/EEC and 93/15/EEC and Directives 94/9/EC, 94/25/EC, 95/16/EC, 97/23/EC, 98/34/EC, 2004/22/EC, 2007/23/EC, 2009/23/EC and 2009/105/EC of the European Parliament and of the Council and repealing Council Decision 87/95/EEC and Decision No 1673/2006/EC of the European Parliament and of the Council ([1]), and in particular Article 10(6) thereof,

Whereas:

(1) In accordance with Article 8(1) of Regulation (EU) 2017/746 of the European Parliament and of the Council ([2]), devices that are in conformity with the relevant harmonised standards, or the relevant parts of those standards, the references of which have been published in the *Official Journal of the European Union*, are to be presumed to be in conformity with the requirements covered by those standards or parts thereof set out in that Regulation.

(2) By Implementing Decision C(2021) 2406 ([3]), the Commission made a request to the European Committee for Standardization (CEN) and the European Committee for Electrotechnical Standardization (CENELEC) for the revision of existing harmonised standards on *in vitro* diagnostic medical devices developed in support of Directive 98/79/EC of the European Parliament and the Council ([4]) ('the request').

(3) On the basis of the request, CEN and CENELEC revised the harmonised standard EN ISO 15223-1:2021 on symbols to be used with information to be supplied by the manufacturer, the reference of which is published in the *Official Journal of the European Union* in support of Regulation (EU) 2017/746, in order to take into account the latest technical and scientific progress.

(4) The revision of this standard resulted in the adoption of the amendment EN ISO 15223-1:2021/A1:2025 on addition of defined term for authorized representative and modified EC REP symbol to not be country or region specific ('the amendment').

(5) The Commission has assessed, together with CEN and CENELEC, whether the amendment complies with the request.

(6) The amendment satisfies the requirements which it aims to cover, and which are set out in Regulation (EU) 2017/746. It is therefore appropriate to publish the reference of the amendment in the *Official Journal of the European Union*.

([1]) OJ L 316, 14.11.2012, p. 12, ELI: http://data.europa.eu/eli/reg/2012/1025/oj.

([2]) Regulation (EU) 2017/746 of the European Parliament and of the Council of 5 April 2017 on *in vitro* diagnostic medical devices and repealing Directive 98/79/EC and Commission Decision 2010/227/EU (OJ L 117, 5.5.2017, p. 176, ELI: http://data.europa.eu/eli/reg/2017/746/oj).

([3]) Commission Implementing Decision C(2021) 2406 of 14 April 2021 on a standardisation request to the European Committee for Standardization and the European Committee for Electrotechnical Standardization as regards medical devices in support of Regulation (EU) 2017/745 of the European Parliament and of the Council and *in vitro* diagnostic medical devices in support of Regulation (EU) 2017/746 of the European Parliament and of the Council (https://ec.europa.eu/growth/tools-databases/enorm/mandate/575_en).

([4]) Directive 98/79/EC of the European Parliament and of the Council of 27 October 1998 on *in vitro* diagnostic medical devices (OJ L 331, 7.12.1998, p. 1, ELI: http://data.europa.eu/eli/dir/1998/79/oj).

(7) The Annex to Commission Implementing Decision (EU) 2021/1195 ([5]) lists the references of harmonised standards for *in vitro* diagnostic medical devices drafted in support of Regulation (EU) 2017/746.

(8) As the harmonised standard EN ISO 15223-1:2021 has been amended, the reference to its previous version should be deleted from the Annex to Implementing Decision (EU) 2021/1195.

(9) Implementing Decision (EU) 2021/1195 should therefore be amended accordingly.

(10) In order to give manufacturers and other economic operators sufficient time to adapt their processes and devices that are covered by the harmonised standard EN ISO 15223-1:2021, it is necessary to defer the withdrawal of the reference of that harmonised standard, to allow for a period of 5 years, as information provided by the sectorial interested parties in the Subgroup of Standards of the Medical Device Coordination Group shows the significant impact on economic operators in terms of costs and timing to implement labelling changes in manufacturing and distribution of devices, taking into account the processes involved, both at EU and international levels ([6]).

(11) Compliance with a harmonised standard confers a presumption of conformity with the corresponding essential requirements set out in Union harmonisation legislation from the date of publication of the reference of such standard in the *Official Journal of the European Union*. This Decision should therefore enter into force on the day of its publication,

HAS ADOPTED THIS DECISION:

Article 1

The Annex to Implementing Decision (EU) 2021/1195 is amended in accordance with the Annex to this Decision.

Article 2

This Decision shall enter into force on the day of its publication in the *Official Journal of the European Union*.

Point (1) of the Annex shall apply from 17 June 2031.

Done at Brussels, 15 June 2026.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

The Annex to Implementing Decision (EU) 2021/1195 is amended as follows:

(1) entry No 8 is deleted;

(2) the following entry is inserted:

'8a.	EN ISO 15223-1:2021 Medical devices - Symbols to be used with information to be supplied by the manufacturer - Part 1: General requirements (ISO 15223-1:2021) EN ISO 15223-1:2021/A1:2025'.
